

# PROPORTION OF SCAVENGING IN THE DIET

--

++

## ENCOUNTER RATE

**Basal metabolism**

*e.g. ectothermy*

**Locomotion cost**

*e.g. volancy*

**Detection rate**

*e.g. vision or olfaction*

**Environment**

*e.g. carrion availability*

## HANDLING TIME

**Food processing**

*e.g. phenotypic adaptations*

**Competition**

*e.g. body size*
